

When it comes to flooring, We've got you covered.

Taking care of your floor

To ensure you of the full benefit of the Clipper Collection Warranty and to extend the beauty of your new hardwood floor for years to come, we recommend the following preventative maintenance for your hardwood floor:

- Sweep and vacuum floors regularly. Use walk-off-mats at door ways and area rugs in high traffic areas to make long term care easier.
- For normal cleaning use a sponge mop with clear water, squeezed dry.
- For heavier cleaning, mist a cleaner (made for poly-urethane coated hardwood floors) onto a sponge or sponge mop. Hardwood floor cleaner is available at most local hardware stores.
- Install felt floor protectors under furniture and appliances to help prevent scratches and dents. Use soft rubber casters for rolling furniture.
