

When it comes to flooring, We've got you covered.

Care of WE Cork Floors

Maintenance of Waxed WE Cork Flooring:

Regular cleaning: treat waxed WE Cork Flooring with waxed finish with a good quality paste wax (i.e. Butcher wax) and buff.

Heavier Cleaning: Remove old wax and dirt with a power buffing machine using 00 steel wool disc or 150-180 grit sandpaper disc or nylon screen pad. Apply several coats of wax and buff between each coat with a lamb's wool pad.

Maintenance of Varnish and Polyurethane Matte WE Cork Flooring:

Regular Cleaning: Vacuum and/or damp mop with a mild wood floor cleaner or with a solution of one part white vinegar and four parts water.

Where a more shiny appearance is desired: apply liquid polish and/or buff flooring.

DO NOT USE PRODUCTS THAT CONTAIN WAX.
